Download SimLab OBJ Importer for SketchUp 2015. A: I have an older version of Simlab (3.7.1.1) and I am thinking of upgrading to the latest version 4.0.1. However, the below function is not available in the latest version. I believe there is a way to port it, as the following function is available in the current version:

```
simLab.composer.import('/path/to/model.obj',function(getModel){ // do some actions return true; })
```

simLab.composer.import('/path/to/model.obj').then(function(model){ // do some actions return true; })

Refer: On Saturday, however, U.S. Army Sergeant Bowe Bergdahl gave a brief statement to Army investigators, reading from a prepared statement he had received from his lawyer: "I served five years in the United States Army after leaving the Taliban. While I was captured by the Taliban, I was wrong and I deserve nothing but punishment for my actions and the action of my fellow Soldiers who left me behind." Bergdahl also apologized to his family, his fellow soldiers and the American people. "I had come to hate everything American." On Saturday afternoon, Bergdahl's commander, Col. Robert Cone, released a statement. "I am extremely disappointed in the decisions made by the Afghan government and the Taliban leadership to trade five detainees for an Army sergeant in direct violation of Army and U.S. law. These actions were made by high-level Taliban officials in the absence of U.S. leadership." He continued: "On behalf of the U.S. military, we deeply regret the harm done to Sergeant Bergdahl and his family by these deplorable actions. I am grateful for their resiliency, courage and honesty in the f678ea9f9e
